CIRCULATED PRIVATELY TO BUSINESSMEN

THE KIPLINGER WASHINGTON EDITORS

1729 H STREET, N. W., WASHINGTON 6, D. C.

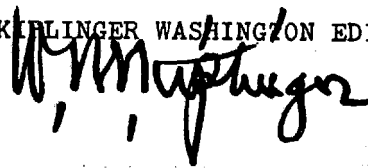

CPYRGHT Who's ahead in the cold war, Soviet Russia or the United States?

Committee for Economic Development (CED) had an off-the-record session to get answers from public figures...VP Nixon, former steel man Randall, Edward Allen of Central Intelligence, and several leading educators.

Conclusion: The reds are now leading in many important areas... missile propulsion, science education, research, weapon decision-making, the system for deciding what to make. To find out more, send \$2 to CED, 711 5th Ave., N.Y. 22, N.Y., for "Soviet Progress v. American Enterprise."

Yours very truly,

THE KIPLINGER WASHINGTON EDITORS
